## What is Smart Office and Meeting Room Solution?

什麼是智能辦公室、會議室方案？

The Smart Office model is becoming an increasingly popular alternative to traditional office automation systems. The key considerations driving business professionals to deploy Smart Office solutions are:

- Convergence: Building systems control functions can be centralised into a single, user-friendly interface
- Mobility: Users can manage and inspect building systems remotely
- Security: Automated surveillance and safety systems provide heightened security while device monitoring allows device or system failure to be addressed immediately
- Productivity: Automation control and ease of use save users valuable time
- Employees' satisfaction: Smart Office's automation systems raise employees' comfort and well-being
- Reduction in operating costs through energy savings and early detection of device malfunction

智能辦公室和會議室方案，為傳統辦公室加入了自動化系統。為什麼要加入辦公室自動化系統？以下是一些重要的考慮因素：

- 配合智能大廈系統控制，能在同一畫面統一控制
- 客戶可以遠程管理和檢查系統
- 自動監測系統，更加安全和加速故障處理
- 提高生產力，節省寶貴的時間
- 提高員工生產力，令辦公室更舒適
- 通過節約能源，降低經營成本和及早發現設備故障

## Function Diagram

功能分佈圖

- Motorized Drapes
- 電動窗簾方案

- Background Music System
- 背景音樂系統

- Intercom systems
- 樓宇對講系統

- Building access control
- 門禁系統

- Lighting solutions
- 照明系統解決方案

- Fire alarm and smoke detectors
- 火警警報和煙霧探測器

- Audio/video recording in board rooms and meeting rooms
- 會議室音頻/視頻通訊系統

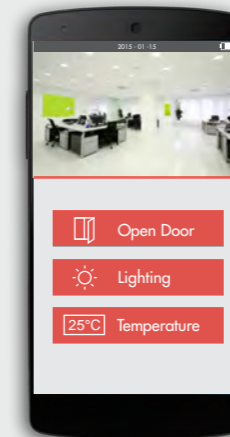

- Air quality detection
- 空氣質量檢測

### Wireless Mobile App Access Control

無線手機程式應用訪問控制

- QR code scanning for visitor's registration
- One-touch control OR touchless control
- Automatic Call Lift function or stop at preset floor
- Use mobile device to replace access card
- Support iOS and Android

- 訪客透過掃描QR碼登記入住
- 單觸控制或減少觸控控制
- 自動呼叫電梯或預設停靠樓層
- 使用手機取代訪問卡
- 支援iOS和Android

Our experts can design and implement customised Smart Office Solutions according to customer's preferences and requirements. Home Touch can integrate multiple different Smart Building components into a single, user-friendly system for monitoring and controlling of the various building systems. Using the latest Android or iOS application technologies, customers can interface with separate building systems using one single device.

我們的專家可以根據客戶的喜好和要求，設計更稱心的智能辦公室和智能住宅方案。控持的方案整合多種不同智能大廈和別墅等平台，能更方便地進行統一管理、監測和控制。使用最新的蘋果及安卓方案，客戶能更容易、獨立地控制系統的每一種設備。

# Product Introduction

## 產品介紹

### Lifeous Win 7 Panel 视窗 7 Lifeous

- 10" IPS, multi touch
  - Portable video intercom, smart control and scene control
  - Alarm arm/disarm
  - Photo Album
  - WiFi built-in
  - Control HiFi, TV, air-con and DVD
  - 3D Graphical user interface (GUI)
  - Customised scene setting
- 多點觸控十吋IPS屏
  - 可攜式對講、智能家居、情境控制
  - 布防、撤防
  - 電子畫冊
  - 無線WIFI
  - 家電控制
  - 三維介面
  - 自訂功能

### Kenso switch series Kenso 開關系列

光亮銀  
Silver

瑰麗金  
Champagne  
Gold

型格黑  
Black

格調銅  
Copper

\*各款均可配選黑色、銀色或金色按鍵  
Can be selected with black, silver or champagne gold buttons.

### Combined Switch Panel

連體組合開關

### IPBus System IPBus 總線系統
